Staying in Beit Ya'Had means participating in the founding of Paris Kibbutz

Presentation of Paris Kibbutz, a kibbutz in buildings :

Paris Kibbutz is a kibbutz in buildings. A kibbutz, first of all, begins with the establishment of a lucrative project whose profits are intended to finance the collective life of kibbutz. These profits also finance the shares of « Tikkun Olam¹ » of the kibbutz.

« Beit Ya'had », the reception house of «Paris Kibbutz», is a kosher property, designed for your holidays, your small-committee events (birthdays, celebrations, country days, training courses, etc.), your weekends with family and friends. The association Paris Kibbutz welcomes its donors to Beit Ya'had, in thanks, because they participate :

- the successful development of the lucrative Kibbutz project in Paris and the subsequent establishment of its shared housing in Ile de France
- Its actions at Tikkoun Olam.

The Tikkun Olam of Paris Kibbutz : To learn more, click [here](#) and/or [here](#).

If you wish to stay in Beit Ya'had, you just have to make a donation to the association (received cerfa).

For more information, see page 9 of this booklet.

¹The « Tikkun olam » is one of the central concepts of the Zohar (Book of Splendor), which is the masterpiece of the Kabbalah. The « tikkun olam » « תיקון עולם », means: «repair of the world». It is a concept that largely covers the Jewish conception of social justice. The term Tikkun Olam has been used by the modern kibbutz (cf. the revival of the kibbutz) in Israel, since 1987, in their psycho-socio-educational and humanitarian investments).

Beit Ya'had, kosher ecotourism

Ecotourism is a form of responsible tourism that takes place in natural areas. It initiates and contributes to the protection of the environment.

Protecting the environment is a human attention to Creation, taught by the Torah.

Ecotourism proposed by Paris Kibbutz at Beit Ya'had is an eco-friendly trade. More than that, he pays tribute to her, offers anyone who wishes to rejoice.

To welcome all nature lovers, Jewish and not-Jewish friends of Israel, Beit Ya'had watch over the casherout of its house. (For more information on casherout, see page 8).

Beit Ya'had and its «kibbutz mode» stays

A few days together in «kibbutz mode» are regularly offered to supporters and members of the association. A community life in Beit Ya'had is then shared (meals, study, work, leisure, parties etc.).

These stays are intended to initiate to shared life in the modern kibbutz called «urban» or «rurbains». Their participants are also the animators of these friendly holiday stays, each with its proposals and talents. The particularly developed green tourism around Beit Ya'had is explored there.

The invitation of young Israelis in psychosocial difficulty, coming to teach Hebrew to the participants, remains the nodal point of the stay. Hosting and making discover Paris and its surroundings to these young guests, is always expected of the participants, following the stay. Knitting with these young people an affectionate, educational, cultural and bearer bound justifies the initiative and the continuation of these invitations.

The health situation still reduces the number of participants in these stays (no more than 12 participants staying). It still randomizes the arrival of young people from Israel.

Life in Beit Ya'had

Summer and winter, Beit Ya'had is a little paradise where comfort, fun and ecology go hand in hand! Come and relax, spend time with family, friends, colleagues, students etc.

In summer, you can enjoy its land of 4600 m² to share with Soleil, Clochette, Pépité and Jonquille, our 4 adorable tamed lambs, in charge of eco-grazing. On comfortable sun loungers, rest from the hustle and bustle of the city, skin caressed by the sun. Your renewed strength, games of snowshoes, balls and darts or even a table tennis are at your disposal, for fun and friendly moments. The inflatable pool welcomes the little ones for water games. At lunch or dinner time, a garden barbecue offers you the possibility to cook light, to grill your vegetables, meats and fish. Indoors, rest in the cool of his house while the children play. For them, everything is there! They will find on site a necessary to colorize, cut, glue as well as dolls, small characters and vehicles, building games (duplo), company etc. No need to overload you when coming to Beit Ya 'had!

As early as autumn, in front of the soothing flames of the wood stove, don't miss a good chocolate, a Boukha or a vodka. Summer and winter, to accompany this tasting, enjoy local potatoes cooking on the coals, fruits, vegetables and fresh eggs from nearby farms.

During your summer and winter stay in Beit Ya'had, a table football, cake and chocolate moulds «fun» (Hebrew letters!), feathers and calligraphy ink, Acrylic paints and recovery supports are your disposal in the large living room and games room on the ground floor, as well as a small library of books and scores. A Yamaha electric piano gives you the opportunity to play or decipher Jewish music, songs from Israel and elsewhere.

In Beit Ya'had, living and cooking with family or friends is a real pleasure. Two table services, two sets of utensils and two ovens are available with the colour codes "white" for 'halavi (milk), "red" for bassari (meat). It is possible for anyone who wishes to go and wash the dishes of the house in a wash-house crossed by the white water of a river, 4km from the house. Three boxes and nets are provided for these purposes.

Plata, candles and shabbat timers, service for kiddouch and havdala, as well as a white tablecloth complete this kosher equipment. A set of cake moulds and its necessary to cook good desserts, a pancake maker, a fryer, a raclette (smoked salmon) service and a yogurt maker allow the realization of diversified and tasty brunch.

Beit Ya'had introduces its visitors to an ecological way of life. Its volunteers have engaged in the development of a botanical garden and aromatic herbs where they have yawned and are constantly fighting the repelling of invasive bamboo. Passing through Beit Ya'had, the garden tools are at the disposal of those who wish to put their touch on it and maintain it. Do not hesitate to add your rose, an aromatic plant or a small fruit tree! You will find them growing again during your next stay!

Compost at the bottom of the garden is intended for biodegradable waste that will be our soil for tomorrow. Dry toilets, installed in the sheepfold, complement in an ecological and militant way par excellence the amenities of the property. They save more than 56,000 litres of water per year. You will be able to compete with our 4 lambs who spare us the weekly intrusion of a noisy and power-hungry shearing, gratifying us by their charming and affectionate presence, for those who are not angry with the «few fertilizers» that they disperse on 4000 M², outside «garden space» strictly speaking, or 600 M² more or less, protected from their natural fertilizer by a discreet fence.

The property guarantees privacy; it is surrounded by bushes and tall trees. People sensitive to tsnuiot feel comfortable there.

Four vehicles can find parking inside the property.

A few bicycles at your disposal are waiting for you to crisscross the roads lined with poppies.
